health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN'S IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.  
Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the best of medicines.  
JOHN K. ALLENDER.

BROWN'S IRON BITTERS is composed of Iron in soluble form; Cinchona the great tonic, together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

## DEATH OF THURLOW WEED.

The GAZETTE's dispatches bring intelligence of the death of Thurlow Weed, the veteran journalist, this morning, at the ripe age of 85 years. He was born at Cairo, Greene county, New York, on the 15th of November, 1797. He was but a child when he began to work for a living. At 10 he was a cabin boy on a Hudson river boat, and at 12 working for a printer in Catskill. This engagement was an apprenticeship of his own seeking. When the war of 1813 began young Weed volunteered in the American army. At his majority he owned a newspaper. Twice elected to the Assembly of the Empire State, he never afterwards accepted a political position, however important, honorable or remunerative. Mr. Weed was a clever party manager, and was given a large share of the credit due to the men who secured the election of De Witt Clinton as Governor of New York. He assumed editorial charge of the Albany Evening Journal in the year 1830. His endeavors in behalf of William Henry Harrison, Zachary Taylor, Winfield Scott, Fremont and Lincoln, nominated for the Presidency, are historic. When Mr. Weed visited Europe, in 1861, he was received with marked distinction, due to a prominent journalist, politician and diplomatist. He retired from the Albany Evening Journal in 1863, but so lately as 1880 contributed to its columns in the shape of an article recording his half a century's connection with public life. Mr. Weed was the author of a volume of letters addressed from Europe and the West Indies, and of an interesting and valuable book on his personal reminiscences. Upon his having attained the 83d anniversary of his birth, the New York Press Club, of which he was the oldest member, tendered him a reception, which proved to be one of the most delightful occasions in the history of that association. He has been sinking for some time, and his death has been daily expected during the past month.

## A CHANCE FOR COMPLICATIONS.

If President Arthur should die or resign before the 10th of next March and David Davis, the President of the Senate, should then succeed him as President, according to the terms of the constitution, by what process short of revolution could Judge Davis be ousted from the White House, until the expiration of the term for which James A. Garfield was elected, and which Arthur and Davis would have been serving out? True, the Senatorial term of Judge Davis will expire on the 4th of next March, but suppose he succeeds to the Chief Magistracy of the nation before that, and becomes the Commander-in-Chief of the army and navy, and takes the oath of office according to law? No danger is apprehended, as no such contingency is likely to arise, and Judge Davis is not a usurper; but the dangerous possibilities of such a supposed case reveal the necessity which exists and imperatively demands some action on the part of Congress to provide for the Presidential succession.

Under protection the value of farmers' products has amazingly increased as shown by the following terse statement from an exchange. "In 1816 one bushel of corn would buy one pound of nails. In 1833 one bushel of corn will buy fifteen pounds of nails. In 1816 it took from twenty to eighty dozen of eggs to buy one bushel of salt. In 1833 one dozen of eggs will do the same thing. In 1816 it required sixty-four bushels of barley to buy one yard of broadcloth. In 1833 five bushels of barley will do the business. In 1816 it required one bushel of wheat to purchase one yard of calico. In 1833 one bushel of wheat will buy thirty-five yards of a better article. In 1816 a pair of woolen blankets cost as much as a cow. In 1881 a cow will buy from six to twenty pairs superior in every way."

## EDITORIAL NOTES.

The third edition of *Copp's Settler's Guide*, a popular exposition of our public land system, is before us. It is edited by Henry N. Copp of Washington, D. C., the well known author. Its price is only 25 cents in paper and 75 cents in cloth: 8vo, 114 pp. The chapter on surveys is illustrated, and shows how to tell township and section corners, etc. The chapters on homesteads, pre-emptions and timber culture contain the latest rulings and instructions. Every settler and land man should have a copy of this valuable little book.

An item appeared in the columns of the GAZETTE yesterday, clipped from the Carson Appeal, giving the names of aspirants for the position of Warden of the State Prison. Among them was mentioned "Bragg of Washoe." The item was inadvertently permitted to be printed with Mr. Bragg's name among the list. There are but two men of the name in the county, neither of whom would accept the Warden-ship if tendered by every member of the joint convention.

It has been officially decided at Washington that where a settler has failed to comply with the law in making improvement, but has tilled the land, and his failure to build is shown to have been caused by climatic influences, he shall be allowed a further period of six months within which to establish his residence.

The libel suit that Mr. Reek, the man who killed Anderson, of the Eureka Leader, is about to commence against the Enterprise and Colonel Shaw, its editor, is quite amusing. It will have a good effect, however, for Mr. Reek will come to the conclusion before the game is over that the taking of human life is no joke.

Gus Lewis intends to cane "Democrat," the Carson correspondent of the Silver State, so says the Tribune. There is some doubt in the minds of those who know "Democrat" as to whether Mr. Lewis could accomplish that job if he undertook it.

A Cleveland woman recently married a Chinese laundryman, and three days thereafter the unhappy Celestial appeared at a barber shop and ordered his pigtail cut off, saying in explanation, "Too muchee dam yank."

C. N. Harris and Geo. B. Hill have leased the Carson Index. C. N. Harris will continue as editor, and Mr. Hill will look after other departments.

The fight for the speakership of the next Assembly is narrowing down, and Hon. C. S. Varian seems to be the favorite by a large majority.

The Eureka Sentinel thinks Hon. C. S. Varian of Reno is "a very bright and capable man" for Speaker of the Assembly.

## EASTERN DISPATCHES.

Extracts From the Dairy of one of the Jeannette Victims.

WASHINGTON, NOV. 21.

Dr. Collins of Minneapolis brother of Jerome Collins of the Jeannette expedition is here. In an interview he reiterates his charge against De Long and Melville for their bad treatment of his brother. Among other things he furnishes extracts from his brother's diary after the sinking of the Jeannette. It says: "We are preparing to go south. Nothing is ready. We started with a rush and burst three sleds. There is no experience governing our movements, resulting in a mess of the worst kind. The men are growing among themselves at the mismanagement." The notes show that Collins killed the most game on the retreat. After a vivid description of a terrible fight with the elements in an open boat, he says: "I never experienced such misery. We were wet by every sea, trembling with cold and hopeless, excepting in the mercy of an Almighty God. We sat jammed together for nearly 72 hours, when we sighted the low coast of the Lena delta. Five days and nights were we in the open boats, and then had to haul the boats a mile and a half, and over the pack in a storm." The second day after reaching the Lena delta he writes: "The general plan of running the machine, which has been our bane so long, still holds like a leech, and sucks our chances of escape away. Our allowance is half a pound of meal per day." The suffering from hunger is then described in pitiful language. The last entry was made September 30. The doctor says he can establish the utmost cruelty of the treatment of his brother all through the trip. Even at the time when Melville was inscribing the names of De Long's party on the cross raised over their graves, he placed his name, although the scientist of the party, under the head of sailors, simply "J. J. Collins."

Death of Thurlow Weed.

NEW YORK, NOV. 22.

The Tribune says: At an early hour this morning Thurlow Weed was believed to be dying. He was found to be unconscious yesterday morning and only rallied once in the course of the day, when he recognized his daughter. Three physicians were in attendance upon him. He continued to sink during the afternoon and evening, and the beatings of his heart were at times almost imperceptible. When they were counted they fluctuated between 133 and 150 per minute. At last report the attending physicians did not think he could survive for any length of time. He suffers no pain, but his body is worn out, and he is slowly but surely passing away.

NEW YORK, NOV. 22.

Thurlow Weed died this morning at 8:55, surrounded by his weeping children, grand-children, physician, nurses and all his household. Hon. Thurlow Weed, the veteran journalist and statesman, breathed his last. Just before passing away Mr. Weed groped with his right hand around the bed as though he sought his children's hands. His grand-daughter took the extended hand, felt a soft pressure, and the next moment he was dead.

—The Commissioner of the General Office says large portions of the public domain are unlawfully taken possession of in many of the Western States by action of rich influential land pirates to the great injury and detriment of all bona fide settlers. In California it appears that this evil prevails to a greater extent than in any other part of the Union.

—Willmot H. Ward and W. F. Solter are indicted by the Grand Jury of the District of Columbia for offering money to employees to abstract from the Bureau of Engraving and Printing paper upon which notes were to be printed. The object in view was to prove looseness in the management, and thus influence Secretary Folger to remove Colonel Irish, Superintendent of the Bureau.

## PERSONALS.

R. F. Jones of Summit is in town.  
C. B. Hawley of San Francisco is at the Depot.

James Ryan returned to Candelaria this morning.  
George W. Mapes and J. H. McCann are at the Palace.

A. S. Hunt of Round Rock, Texas, is looking about Reno.

W. J. Hunt of Salt Lake was at the Depot Hotel to day.

George M. Wright, U. S. Geological Survey, is registered at the Depot.

Gen. J. H. Matthews, Deputy U. S. Collector of Internal Revenue, is in town.

D. Proctor, the tender-hearted butcher of Wadsworth, was in town last night.

Dr. Dawson, Superintendent of the Insane Asylum, returned from the Bay this morning.

George Small, who has been staging between Oroville and Susanville for some months, is visiting friends in Reno.

Miss M. A. Harney is confined to her room with a disease similar to that which proved fatal to her niece, Miss Alice Harney, two weeks ago.

Hugh McNamara of Long valley is at the Palace. He is one of the oldest stage drivers in this section of country, but is now married and settled down to the life of an honest granger.

Ben. Teal, business and stage manager of the Palmer Dramatic Company, called at the GAZETTE office this afternoon. Mr. Teal is a very pleasant gentleman to meet and a thorough showman.

E. D. Boyle, ex-Superintendent of the Alta mine, and Sheriff Hanks of Storey, returned from the eastern part of the State last evening, where they have been to examine some mining property.

Mrs. Langtry, over whom the bald-headers of New York are going daff, will pass through Reno in a short time. She will no doubt prove to be quite an ordinary-looking woman in comparison with several of Reno's beauties.

## Plumas Items.

[From the National of Nov. 18.]  
The weather is unusually cold for this time in the year.

A \$70 chispa was found in one of the Western clean-ups the other day.

Johnsville is one of the liveliest towns in Plumas now, and is building up rapidly.

J. E. Edwards of the Plumas House has been confined to his bed for several days, and the physicians seem to think his case decidedly critical.

A Mohawk hunter got three deer at one shot lately. He shot one through the head, the second through the neck and the third through the leg. They were all bucks.

On Monday last an accident occurred on the road between the Penman ranch and Billy Parker's, resulting in a broken arm. Mr. John Nevill and wife and Mrs. Witkind of Eureka, were coming to Quincy, and, while driving along at an ordinary trot the wagon wheels went into a "chuck-hole," the shock throwing Mrs. Witkind out of the wagon and breaking her arm about half way between the elbow and wrist.

## "Omaha Bill."

William Haggitt, or Omaha Bill, the railroad brakeman who was killed by a collision near Davisville last Saturday, was well known in Reno and vicinity, he having at one time run between Truckee and Wadsworth. He was six feet five inches in height, of great physical strength, and a queer character generally. He was born in Ames, Stony county, Iowa. He left home when about sixteen years of age. He was a wanderer, and seldom remained on a road for more than six months. In this manner he had become well known to nearly all the railway men of the West. At the time of his death he was about thirty years of age.

## Reno Guard Hop.

The Reno Guard will give a social hop on Thanksgiving night at the company armory. The price of admission will be \$1.00 for gentlemen and ladies, and the company intend giving every one their money's worth of dancing. The best of music will be engaged and a very pleasant evening passed. Read ad. in another column.

## Gen. Butler's New Suit.

Jack Fitzgerald has had an elegant dress suit made for Gen. B. F. Butler, Governor elect of Massachusetts—not for the real flesh-and-blood General, but for a walking figure about a foot high, which is an excellent likeness of the persistent old man.

## President Pro Tem.

If the Democrats select Hon. Jerry Schooling for President pro tem. of the Senate that honorable body (the Senate, not the Democrats) will have a gentleman in every respect worthy the honor.

## ANOTHER NEW CEREAL.

A Grain with an Unlimited Capacity to Stand Drought.

Millennaise is the name given to a new cereal which has been introduced in South Carolina. It is found in Colombia, South America, and furnishes the main food of the people there. It also makes good fodder for stock. The cakes made from it are described as better than corn cakes. The Savannah Guano Company's chemist pronounces it superior in food qualities to wheat. It has been grown experimentally in South Carolina for several years, producing at the rate of from 50 to

ONE HUNDRED BUSHELS PER ACRE.

The Rev. H. H. Pratt, the missionary who brought the plant from South America, gives these further particulars in regard to it: "The plant is allied to the sorghum and Guinea corn families, and should not be planted where there is any danger of mixing them. The grain is smaller and more mealy than the Guinea corn, the heads are larger and more compact, and the color is milk white instead of red. It differs from the sorghum in this, that the sugar it contains is fully converted into corn when the grain matures—as the pith of the green stalks becomes as dry and tasteless as that of Indian corn when the stalk is dead. In Barranquilla, on the coast, where we have a dry season (which is really a drought) of five or six months' continuance, I have had it planted in my garden, and after it had ripened one crop of seed, I have cut it down to the roots, in the midst of this dry season, and had

## A SECOND CROP.

Of inferior quality, of course, to shoot up at once from the roots. I have been told that a third crop of fully ripened seed can thus be made from a single plant. I do not know what this can imply (for the soil at this season gets dry as a potsherd and nearly as hard), unless it means that above most other plants it lives off the atmosphere, which there certainly is densely charged with moisture from the sea. It was this unlimited capacity to stand drought which induced me to bring the seed home, in the belief that it would be of incalculable service to our Southern States, where our crops so often fail from drought."

## Pyramid District.

The Roma-Union tunnel is now in 850 feet, and making good progress daily. W. R. Chamberlain has men employed doing assessment work. He has faith in the final prosperity of the district, and will continue to stand by it. John Armstrong is having work done on his claims, and the Buckeye company is doing assessment work. Considerable prospecting is also being done in the vicinity. Pyramid will come to the front some day. It can show more ore on the surface than any other district on the coast.

## Not a Candidate.

The Reno GAZETTE's opposition to the proposition of making the Lieutenant-Governor ex-officio Warden is accounted for. Allen Bragg, the business manager of that institution, is a candidate for Warden.—Carson Tribune.

The above is as willful as it is contemptible.

## Meteor Shower.

The November meteors are beginning to shoot across the firmament. The great electrical disturbance now existing ought to warrant a grand display. Since 1867 there has not been a great shower. Something magnificent is expected in a few days.

## Deputy Treasurer.

It is said that Geo. W. Richards, a clerk in Wells-Fargo's Carson office, will be State Treasurer elect Tuffy's deputy. Richards will make a good deputy.

## JOTTINGS.

Don't forget the Lights o' London to-night.

Plenty of trout and salt water fish in the market.

There seems to be lull in the undertaker's boom just now.

The boys are rustling for money with which to buy skates.

Allen's cigars are really fine. To an old smoker their flavor is exquisite.

One hundred and twenty immigrants passed through here last night.

San Francisco will send a delegation of husband-hunters to Carson this Winter.

Chielovich & Co. have a car load of empty casks to send below to be refilled.

The barometer is rising again, and good weather may be ours for some days yet.

Music rolls at Nasby's. Thermometer stood at 7, 9, 11, 1, 3—24, 36, 44, 50, 48.

Citizens in the western part of town complain of the depredations of hogs at night.

Young girl wanted to assist in housework in a small family. See 50-cent column.

Roma-Union stock upon which the delinquent assessment is not paid will be sold on the 6th of December.

An assessment of five cents per share has been levied on the capital stock of the Ventura mine, Silver Glance District.

A black bear went east this morning on the express train. It is being sent to Ben. Butler, it is said, by an admiring Democrat.

Take in the glimmering flicker of the tapers of London town to-night. Everybody will be at the Nevada Theatre to witness the play.

Manager John Piper is here with the Lights o' London company. John says the company is one of the best that has ever visited this State.

A daily chicken train will soon be run on the C. P. road. They will have a passenger coach in the rear, and a locomotive to pull it, with a tender behind.

The Palmer Dramatic Company came in on the V. & T. local at noon to-day with a full car load of scenery and stage apparatus—and some very pretty ladies.

The old snow plows of the C. P. have been brought out and put in first-class order at Truckee. They now stand on the side track, ready for use at any moment.

Nasby may well feel proud of the display he makes of holiday goods. He takes particular pains in showing his novelties and giving prices, which are surprisingly low.

The aurora this morning was not very bright—it is probably taking a rest after its grand display for a week; but the comet swings its tail across the heavens in its usual grandeur.

The "Lights o' London" posters displayed by the Palmer Dramatic Company which appears here to-night, are the most artistic of any ever put up in Reno. Each one is literally a work of art.

Abraham Bros. of the White House are considering the plan of offering a prize for the best-dressed man who fits himself out at their store. It would be a good idea. They can make a man look like a first-class chromo. Go and see the fine goods they offer.

## Nevada Theater To-Night.

Those who go to see the "Lights o' London" to night will be much pleased. The play and the company are highly spoken of everywhere. The Enterprise says the play "awakens interest by a realistic reproduction of scenes familiar in every-day life, by the never-failing sympathy excited by the spectacle of innocence unjustly suffering at the hands of vice, and by a quick succession of varied and exciting incidents." The Carson Appeal remarks: "The playwright seems to have bent every energy in grouping together in one play as much scenery, startling effects and pleasing stage pictures as possible. He has introduced numberless little scenes which do not appear to exactly belong to the piece, yet are woven in so skillfully that they become a part of it as much as a finger belongs to a hand. The scenery itself is a treat, and the stage accessories and mechanical effects better than ever before produced in this city. Regents Park by moonlight and the realistic bridge scene with the struggle for life in the river fairly carried the audience with it. The company is of the very best material, drilled to a nicely and each picked for the particular role sustained.

Dried Eggs.

Anybody can dry eggs—if he knows how. All that is required is to take the water out of the egg, the white and yolk are crystallized into one mass, and need no salt nor any other substance to preserve them perfectly. When used, give the egg back the water stolen from it, and it is itself again.

Destroyed by Fire.

The residence of W. D. Tobey of Carson was destroyed by fire yesterday morning. The property was insured for \$5,500.

## Turkey Meat.

From now until time of marketing, the turkeys should be liberally supplied with feed. While they can still run at large and get a good supply of green food, they should be fed morning and night with all the hard grain they can eat. When frost has killed the herbage they should, if a roomy place can be provided, be confined and fed with the object of making them as fat and heavy as possible before Christmas. To have them do the best, they should then be furnished with a variety of food, including hot potatoes mashed up with milk and corn-meal. Particular care should be used that they are regularly supplied with water and feed at stated times each day.

## Aboriginal Cheek.

To-day at noon a squad of bucks and squaws with a small band of ponies took possession of the front garden of a private residence on Third street, and calmly distributed piles of fodder for their animals, in spite of the protestations of the lady of the house. When the lord of the mansion came home for his noontide lunch, he bounced the redskins without any preliminaries. When an Indian gets to own a horse or two he develops astounding cheek.

## The Heavens a Sheet of Flame.

If the astronomers have not miscalculated, the comet will return on the back track in a few months and appear ten times as bright as it did a month ago. It is estimated that the eastern heavens will be a sheet of flame from midnight until sunrise, and a sight will be presented to the world such as has never before been witnessed by mortals. After this exhibition the comet will plunge into the sun, the final tomb of all comets.

## Will Change Quarters.

Johnny Belz will vacate the old Wine House barber shop on the first of December and remove to the building immediately west of the Arcade Hotel, formerly occupied by Hammer-smith. Chielovich & Co., will utilize the room made vacant by Belz as a sample room.

Unlike other cathartics, Dr. Pierce's "pellets" do not render the bowels costive after operation, but, on the contrary, establish a permanently healthy action. Being entirely vegetable no particular care is required while using them. By druggists.
